If you see something in this paper you don't like, don't make yourself ridiculous by stopping the paper-just cut it out.

Celina Had Tremendous Crowd at County Sunday-School Celebration Tuesday.

In spite of the torrid weather, Celina had a tremendous big crowd, another safe and sane Fourth, and the Mercer County Sunday-schools another successful Fourth of July celebration to their credit. But it was a hot old time. The safe and same Fourth has come to stay, and Celina can be said to be a pioneer in the movement.

The crowd was a little slow in com ing to fown, but everything was well timed and the parade got off in good order and was an inspiring spectacle. The automobile part of the parade was a surprise as to numbers and most of them were decorated with good taste.

The floats, with their cargoes of happy, smiling youngsters, were the center of attraction, however. The deco-rations and make-up of the big floats showed much taste and painstaking work, but the artists no doubt felt re-paid for their time in the good cause, after all the only thing worth while,

The Moutezuma, Hopewell and Cell-na bands appeared in the parade, furnishing excellent music and making a fine appearance. The big drum major of the Celina band led them like a conquering here and makes them all sit up and take notice. Celina now has the best musical organization the town has ever had, and this is not throwing bouquets just for the sake of throwing

The Sunday-schools represented in the parade by floats were Mt. Carmel, Tabor, Neptune Church of God, Friends Church, Montezuma U. B. Church, Montezuma Disciple Church, Hope Church, Coldwater M. E. Church and Oldtown U. B. Church.

The Mt. Carmel Sunday-school was awarded the prize for the biggest dele- feet before being strangled by the

After the parade reached Mercelina Park and disbanded the people grouped about in the shady spots and spread ren to supper. The baby did not show their dinners in the good old picnic up and search was instituted, the

The auditorium at the park was not able to hold the crowd when the time the home Sunday morning, with infor the addresses of the afternoon arrived, but the intense heat had its effect and when the second speaker began to talk the crowd became restless and commenced to evaporate. Patriotic oratory could not successfully combat with the energy of old Sol and it had to be given up. It was no disparagement to Dr. Blodgett. He as well as the crowd were up against it. But the celebration was a success in spite of it all.

Let us have more. Some harmless amusements could be added without detracting from the spirit of the occasion, and next year should see something of the kind.

The Bible tells us that Noah took into the ark some of all kinds of the wild animals. Did God miraculously cause these wild beasts to go in the ark, or in what manner did Noah get them in?

Answer.-The Bible does not give a direct answer to this question, but in an indirect way it does show us how Nosh could get the wild animals in the ark. The 8th Psalm describes the perfect man as King over all earthly things. Adam was created a perfect man and God gave him dominion or control over all the wild beasts of the field. (See Genesis i, 26-28). He caused these to pass before Adam that Adam might name them (Genesis 1i, 19). The animal creation was subject to the perfect man Adam, not along the line of force, but because of his mental power and domination. When Adam sinned and was driven from Eden he began to lose this power, and it is quite reasonable that the more man became degraded the less power of control he possessed over the animals. Noah was not a perfect man because the child of Adam, but undoubtedly he possessed much more power than man of this day possesses, and this power would enable him to control, in a large measure, the animals. Even in this day we note such power in horse trainers and tamers of wild beasts, who control such animals partly by force and partly by will power, which we can now but imperfectly understand.

What is meant by the "Judg-ment Day," and when will it be! Is it to be a 24-hour day!

Answer.-The term "judgment" includes a hearing or trial and the final conclusion or result of that trial. Not all are judged at once. To illustrate, the Church is now on trial or judgement, which trial or judgement has been in progress since Pentecost. The faithful in this judgement shall be rewarded as we read, "Be thou faithful unto death and I will give thee a crown of life" (Revelation ii, 10). The Judgement as applied to the world in general is entirely a different matter. It is manifest that the whole world could not be judged within 24 hours. The Apostal says, "God has appointed a day in which he will judge the world in rightsousness" (Acts xvii, 31). Again we read: "That one day is with the Lord as a thousand years" (II Peter iii, 8). The judgement of the world by Christ will cover a period of one thousand years (Revelation xx, 4-6). That the judgement of the world had not come in the Apostle Paul's day is clearly shown by his words in the scripture above other Scriptures clearly show that Christ is to be the Judge of the world when he sets up his kingdom at his second coming. In Matthew vxv, 31-46 our Lord gave a discription of the judgement of the world, clearly pointing out that it would take place at his second appearing. This is conclusive proof that the world's judgment is not yet in progress.

GROTH ROAD ASSESSMENT NOTICE.
